INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

FOR FURTHER ACTION as well as, where applicable, item 5 below. International application No. PCT/KR2003/002692 Applicant LEE, Sang Moon This International search report has been prepared by this International Searching Authority and is transmitted to the applicant accord to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of
PCT/KR2003/002692 Applicant LEE, Sang Moon This International search report has been prepared by this International Searching Authority and is transmitted to the applicant accord to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of 2 sheets. It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.
Applicant LEE, Sang Moon This International search report has been prepared by this International Searching Authority and is transmitted to the applicant accord to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of 2 sheets. It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.

The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.
2. Certain claims were found unsearchable (See Box No. II)
3. Unity of invention is lacking (See Box No. III)
4. With regard to the title,
X the text is approved as submitted by the applicant.
the text has been established by this Authority to read as follows:
5. With regard to the abstract,
the text is approved as submitted by the applicant.
the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant
may, within one month from the date of mailing of this international search report, submit comments to this Authority.
6. With regard to the drawings,
a. the figure of the drawings to be published with the abstract is Figure No.
as suggested by the applicant.
because the applicant failed to suggest a figure.
because this figure better characterizes the invention.
b. X none of the figure is to be published with the abstract.

International application No. PCT/KR2003/002692

CLASSIFICATION OF SUBJECT MATTER

IPC7 A61B 5/04

According to International Patent Classification (IPC) or to both national classification and IPC

FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Korean Patent and applications for inventions since 1975

Electronic data base consulted during the intertnational search (name of data base and, where practicable, search terms used)

DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.	
Α	KR1998-072300 A (Ryu, Soo-Chak et al.) 05 Nov. 1998 See entire documents	1-2	
A	WO1999/27351 A (SIMPSON et al.) 03 June 1999 See entire documents	1	
٠.			

Further documents are listed in the continuation of Box C. See patent family	anne
---	------

- Special categories of cited documents:
- document defining the general state of the art which is not considered to be of particular relevance
- earlier application or patent but published on or after the international filing date
- document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- document referring to an oral disclosure, use, exhibition or other
- document published prior to the international filing date but later than the priority date claimed
- later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
